

REMARKS

Claims 1 and 3-8 are pending. No new matter has been added by way of the present amendments. For instance, as discussed with the Examiner during a telephone interview held on September 4, 2007, claim 1 has been amended to include the phrase "...wherein the weight ratio of the compound I to the compound II-2 or II-4 is from 16:1 to 1:4" as supported by the Examples of the present specification. Additionally, claim 3 has been amended to recite a preferred range. The Examiner indicated that these amendments would place the application into condition for allowance. Therefore, no new matter, and no new issues, are raised.

In the event that the present submission does not place the application into condition for allowance, entry thereof is respectfully requested as placing the application into better form for appeal.

Based upon the discussion held with the Examiner on September 4, 2007, the present application is in condition for allowance. The Examiner is thus requested to allow the presently pending claims. Accordingly, issuance of a Notice of Allowability is respectfully solicited.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact Craig A. McRobbie (Reg. No. 42,874) at the telephone number of the undersigned below, to conduct an interview in an effort to expedite prosecution in connection with the present application.
